On reverside side note inphlebiyis

As the reverse side explains, I can't take time for correspondence. I can't keep going.
Order blank enclosed.
In my opinion oerhaps more than the great power of the executive agencies the biggest single obstacle to an investigation now is the wild stories being propagandized by those who pretend scientific detachment but retail error and the efforts of those who, caring naught for fact, have entrapped Members of the Congress into serious factual error.
The result has been the destruction of all credibility at the publicity gain of those who don't give a dman except for self-promotion or getting lecture fees.
I believe there was an entirely different "Oswald" letter.
As a matter of law I do not believe the recent disclosures will influence Ray's chances of getting a trial. I wish otherwise.
Sorry to have to be so brief and without time. Thanks and best regards,
